

# FIRE ISOLATOR

## Datasheet FireBlanket Ultimate VR0906Li

### Product description

The T-ISS FireBlanket Ultimate can be used for normal and EV car fires. It is multi usable for using in parking lots, malls, onboard ferries, etc. The blanket can be used for all car sizes from a small city car up to large SUV models.

Due to depriving the oxygen inlet the car fire will be isolated. The fire will not spread and will avoid collateral damage, also the smoke spread will stop and gives fire crew easier access to the vehicle. The FireBlanket can be multiple used.

The blanket can stand temperatures of 1000 °C for more than 50 hours. It is easy to use, just 2 persons can pull the FireBlanket Ultimate over the vehicle.
