

FIRE ISOLATOR

Datasheet Watermist Applicator 241

Product description

The Fire Isolator Mobile Watermist Applicator 241 is an extended version of the 126 and 138 for fighting car fires and specially developed to limit the fire in electric vehicles. The systems are patented, and are unique in the market.

The FI-MWA241 is a larger version that weighs 30 kg. It can easily be placed under the car to cool down almost the entire bottom of the vehicle. However, it can also be placed sideways as shown in the picture.

At 4 bar water pressure each unit produces a watermist with min. 215 litres per minute.
