

# FIRE ISOLATOR

## Datasheet Fire Blanket Ultra FI-BLULTRA0303

### Product description

The FireBlanket ULTRA 0303 is designed for use on e-bike and e-scooter fires. It can be deployed in parking garages, bike storage areas, shopping malls, and other indoor or outdoor environments. The blanket is suitable for covering a wide range of electric two-wheelers.

By depriving the fire of oxygen, the fire becomes isolated. This prevents the fire from spreading and helps avoid collateral damage.

The ULTRA blanket is reusable up to 30 times and can be cleaned. It can stand peak temperatures of 2050 °C, and has a continuous working temperature of 1400 °C. The Fire Blanket Ultra FI-BLULTRA0806 is easy to deploy.

### Dimensions & Specifications

Art. no:	FI-BLULTRA0303
Dimensions:	3 x 3m*
Weight:	6 kg
Material:	96,6% Highest quality Silica, graphite coating
Temperature resistance:	+2050 °C Peak
Classification:	DIN EN 13501-1 classified with A1 certificate by KIWA/ MPA, ASTM D6413 classified by HPL Engineering NFPA701 by SGS, DIN SPEC 91489
HS code:	70199000
Usage:	reusable

Also available in custom-made sizes.

### Pictures

- Supplied in sturdy smartbag
- Cabinet available
- Big coloured loops for easy handling of the blanket
- Suitable from small cars to large Pickups
- No expiration date, shelflife of 25 year+ if properly stored

\* The blanket has a tolerance of +/- 5% in width and length, which can be affected by temperature and moisture.
